

Zolfo 55 S Flow SC

Sulphur water suspension

Sulphur 55%

Corrective

Aspetto:

Water suspension

Color:

Yellow

Corrective in suspension for sulphur deficiency, important element for protein synthesis. Used for soil correction of field, vegetable and fruit crops.

Its flowable formulation enables an easy dustless application and better mixability with other products.

Having a corrective effect on the soil, it lowers pH and improves the availability of its nutrient elements.

It enhances quantity and quality crop yields integrating sulphur in case of deficiency and increases proteins useful to obtain better quality of crops.

Highly adhesive and resistant to rain washout.

Warning:

Shake well before its application. Do not use when flowering. To be used in the freshest hours of the day. Do not mix with products with alkaline reaction. Before mixing it with phytosanitarii or other fertilizers make a compatibility test. No direct mixing with amino acids, humic acids and organic products. Product is stable at normal temperature and pressure. Storage temperature between 5°C and 40°C. Not combustible. To be used only when strictly required.
