

# Magic Blend

## Mixture of microelements with copper, boron, manganese, enriched with sulphur and magnesium

Special for olive and vegetable crops

### Fertilizer

Aspetto:

**Wettable dust**

Color:

**Blue/green**

For microelements deficiency. The special formulation makes it a complete nourishment being rich in copper (from sulphate, hydroxide and oxychloride), boron, manganese, sulphur and magnesium.

The three copper elements play a very important synergic effect thus improving the efficiency of phosphate, potassic, nitrogen chemical fertilizers and their spreading uniformity.

Special, high performing formulation with rapid spread, which thanks to the presence of mesoelements and microelements provides a complete crop nourishment.

#### Warning:

Do not use when flowering. To be used in the freshest hours of the day. Do not mix with products with alkaline reaction. Before mixing it with phytosanitarii or other fertilizers make a compatibility test. No direct mixing with amino acids, humic acids and organic products. To be used only when strictly required.
