

Rock powder (50% kaolin in water)

Natural substance improving plant resistance to biotic and abiotic stress

Booster of natural vegetable defenses

Strengthener

Aspetto:

Water suspension

Color:

Ivory white

B&G Kaolin Flow is already diluted in water to be sprayed on vegetation (leaves and fruit).

It is a natural booster of natural defenses of vegetables and enables their covering to counteract the thermal effect (protective film from sunlight) reducing sunray overheating.

Thanks to this result photosynthesis is improved with consequent more luxuriant vegetation.

It creates an unfriendly environment for oviposition and phytophagous insects.

Warning:

Shake well before use. Keep it at temperature between 10°C and 40°C in fresh and dry place. Avoid leaking from plants. Avoid contact with eye and skin. Thoroughly wash hands after its use. Keep away from children and pets. Do not eat, drink, smoke during treatment.

Properties
Rock powder 50 (% p/p)
Solubility Aqueous suspension

Foliar
All crops
4,5 - 7,0 kg/hl water

Packages
Code:CORBOFLOW1F 1 kg - bottle (box of 12 pcs) - Pallet:600 kg
Code:CORBOFLOW5T 5 kg - tank - Pallet:630 kg
Code:CORBOFLOW10T 10 kg - tank - Pallet:500 kg
